

**REPORTS FROM THE LOCAL TRAINING MEETINGS FUSE WP 3 June –
December, 2015**

I Local FUSE WP 3 Training, COT, Belgrade

16. June 2015.

On the 16th of June 2015, in the presence of 39 participants (both teaching and non-teaching staff), professor Sinisa Djurasevic, BU, conducted the first local training COT staff, entitled: "Internalization of the high education and ECTS mobility" as a part of dissemination activity within the framework of the FUSE WP3 (Capacity building of the teaching and non-teaching staff for better participation in EHEA).

In the introductory part of training, a theoretical basis of HE internalization were presented and following that, a concrete and practical activities needed for its implementation were pointed out (improvement of faculties web sites, formation of the Course catalogues, adopting relevant key documents like Internalization strategy, Mobility guidelines, Learning agreement and finally ECTS coordinator election).

In the second part of training, a basis for ECTS mobility, when student's mobility is in question, a connection between ECTS and learning outcomes with academic recognition was explained in details. Following that, practical solutions for this link were presented by examples of both wrong and good practice. In connection to the latter, a proposal for Learning agreement was described. This proposal was partly created within the framework of the FUSE project and in cooperation with E+O in a way to efficiently solve potential problems in student's mobility.

It has been already planned to offer this proposal to all Serbian HE for reviewing and latter for adoption. Practical instructions were given following discussion about grade recognition and mobility. One of the recommended solutions is creating and analyzing statistical grade distribution along with the newly created web tools such is Egracons.

Finally, possibilities for teaching and non-teaching staff mobility and its importance for student's mobility were discussed.

II Local WP 3 Training, SUNP, Novi Pazar

2nd – 3rd July 2015

Under umbrella of the 2nd Consortium Management Team Meeting at the University of Novi Pazar, in the presence of 12 participants (both teaching and non-teaching staff, including

students) professors Sinisa Djurasevic, Marek Frankowicz, Jagellionian University, Krakov, Poland and Juan Antonio Martin-Checa, M.Sc, University of Malaga, conducted the second local training entitled: "Internalization of the high education and ECTS mobility" as a part of dissemination activity within the framework of the FUSE WP3 (Capacity building of the teaching and non-teaching staff for better participation in EHEA).

The aim of presentations was to inform academic and administrative employees, apart from delegated representatives, already participating in the FUSE TEMPUS project implementation, about the goals of the project especially regarding concept of internationalization and mobility recognition.

In the introductory part of training a basis of HE internationalization was presented and following that, a practical activities needed for its implementation were pointed out (improvement of faculties web sites, formation of the Course catalogues, adopting relevant key documents such as Internalization strategy, Mobility guidelines, Learning agreement and finally ECTS coordinator election). The importance of the adoption of long-term Internationalization Strategy at the University of Novi Pazar was particularly pointed out.

In the second part of training, a basis for student's ECTS mobility, a connection between ECTS and learning outcomes with academic recognition were explained in details. Moreover, practical solutions for this link were presented using examples of both bad and good practice. In connection to the latter a proposal for a Learning agreement was presented. This proposal was partly created within the framework of the FUSE project and in cooperation with E+O in a way to solve potential problems in student's mobility efficiently.

Professor Marek Frankowicz presented one additional training lecture entitled: "Capacity building for internalization of higher education" and finally, Juan Antonio Martin-Checa gave presentation regarding Erasmus+ opportunities for EU/Serbia Joint Cooperation under KA 107, KA108 and KA2 Actions.

It has been appraised that presentations encouraged the interest and support for the creation of the University potentials, in order to improve future conditions for enhancing student's and teacher's exchange.

III Local FUSE WP 3 Training , UNIKG, Kragujevac

5th November 2015

At this training that took place in the premises of University of Kragujevac Rectorate, in the presence of 21 participants (both teaching and non-teaching staff, including students) professor Sinisa Djurasevic, Olivera Mijatovic, Head of the Office for international cooperation and Milica Spasojevic, Advisor for mobility promotion at UNIKG, conducted Third local training entitled: "Internalization of the high education and ECTS mobility" as a part of dissemination activity within the framework of the FUSE WP3 (Capacity building of the teaching and non-teaching staff for better participation in EHEA).

The aim of these presentations was to inform academic and administrative employees from all UNIKG faculties responsible for internalization in HE, about the FUSE project goals especially regarding internationalization concept and mobility recognition.

In the introductory part of training a basis of HE internalization was presented and following that, a practical activities needed for its implementation were pointed out (improvement of faculties web sites, formation of the Course catalogues, adopting relevant key documents like Internalization strategy, Mobility guidelines, Learning agreement and finally ECTS coordinator election). Importance of the adoption of long-term Internationalization Strategy at the University of Kragujevac was particularly pointed out.

In the second part of training, a basis for ECTS mobility, when student's mobility is in question and a connection between ECTS and learning outcomes with academic recognition was explained in details. Practical solutions for this link were presented by examples of both bad and good practice. In connection to the latter, a proposal for a Learning agreement was described. This proposal was created within the framework of the FUSE project in a way to efficiently solve potential problems in student's mobility.

The second presentation held by ms Olivera Mijatovic was entitled ECTS mobility – Erasmus Chart and inter-institutional agreement. Finally ms Milica Spasojevic, presented briefly Procedures and services at UNIKG in the scope of ECTS mobility.

Presentations obviously encouraged the interest of the participants for improving University potentials, in order to define and provide better future conditions for the enhanced students and teachers exchange.

IV Local FUSE WP 3 Training, UNI, Nis

6th November 2015

The Fourth local training entitled: "Internalization of the high education and ECTS mobility", as a part of dissemination activity within the framework of the FUSE WP3 (Capacity building of the teaching and non-teaching staff for better participation in EHEA), took place at the premises of the University of Nis Rectorate, in the presence of 43 participants (teaching and non-teaching staff and students). Prof. Vesna Lopicic, UNI Vice Rector, addressed to the audience explaining importance of the internationalization for Serbian HEIs and also for the mobility of students, professors and non teaching staff. A FUSE coordinator. Prof. Biljana Mistic Ilic explained the main project goals, its structure and roles of the partners in the project activities.

Professor Sinisa Djurasevic, conducted the fourth local training. The aim of his presentation was to inform teaching and administrative employees, beside the delegated representatives who are already participate in the TEMPUS FUSE project implementation, about the goals of project implementation, and especially about the concept of internationalization and mobility recognition.

In the first part of the training a basis of HE internalization was presented and following that, a practical activities needed for its implementation were pointed out (improvement of faculties web sites, formation of the Course catalogues, adopting relevant key documents like Internationalization strategy, Mobility guidelines, Learning agreement and finally ECTS coordinator election). Importance of the long-term Internationalization Strategy at the University of Nis adoption was particularly pointed out.

In the second part of training, a basis for ECTS mobility, a connection between ECTS and learning outcomes with academic recognition was explained in details. Following that, practical solutions for this link were presented by examples of both wrong and good practice. In connection to the latter a proposal for the Learning agreement was described. This proposal was created within the framework of the FUSE project in a way to efficiently solve potential problems in student's mobility.

It has been appraised that presentations encouraged the interest and support for the creation of the University potential, in order to create future conditions for the greater student and teacher exchange.

V Local FUSE WP 3 Training, BU, Belgrade

27. November 2015

In the premises of the BU Rectorate on the November 27th, 2015 The 5th FUSE WP3 Local Training Meeting took place in the presence of 44 teaching and non teaching staff participants. At the beginning of a training, Prof. Nada Kovacevic BU Vice Rectoran FUSE CONUS Contact person welcomed all guests and opening the event. Prof. Miodrag Lazarevic, BU FUSE Contact person, explained the main goals of the project, enlisted all partners and pointed out their role in the project work packages.

The core part of the training was held by Prof. Sinisa Djurasevic FUSE WP3 leader and his presentation, like for the previous trainings, was entitled: "Internalization of the high education and ECTS mobility". This training was a part of dissemination activity within the framework of the FUSE WP3 (Capacity building of the teaching and non-teaching staff for better participation in EHEA).

Firstly, a basis of HE internalization was presented and after that, practical activities necessary for implementation were pointed out. This includes: improvement of faculties and University web sites, formation of the Course catalogues, adopting relevant key documents (Internationalization strategy, Mobility guidelines and Learning agreement) and finally ECTS coordinator election). In the second part of training, a main prerequisites for ECTS mobility, when student's mobility is in question, a connection between ECTS and learning outcomes with academic recognition was explained in details. Examples of both wrong and good practice were also given. In connection to the latter a proposal for Learning agreement was described. This proposal was partly created in cooperation with E+O within the framework of the FUSE project in a way to efficiently solve potential problems in student's mobility.

Finally, Mr. Pavle Ivetic and Mr. Nikola Savic, from the BU Department for international and inter university cooperation, presented procedures currently used for students mobility at BU.

We were able to conclude that this training has meet expectance of the participants according to fruitful discussions that were produced at the end of training.

Prof. Sinisa Djurasevic

VI Local FUSE WP 3 Training, UNS, Novi Sad

09. December 2015

The last, 6th Local Training Meeting within the framework of the FUSE WP 3, took place in the Multi-medial room at the premises of the Central UNS building on December, 9th 2015. A total of 21 participants, both teaching and non teaching staff attended the training.

The welcoming introduction was given by Prof. Pavle Sekerus, UNS FUSE Contact person and former Vice Rector. Following that, Prof. Miodrag Lazarevic, BU FUSE Contact person presented briefly project as whole, the content of work packages and its main goals.

The core part of the training consisted of two parts: "Internalization in the high education area" and "ECTS mobility in the high education". Prof. Sinisa Durasevic firstly explained general basis for above mentioned HEI activities and then focused his presentations on the most important practical activities needed for their implementation. He especially pointed out significant necessary measures like: improvement of faculties web sites, formation of the Course catalogues, adopting relevant key documents (Internalization strategy, Mobility guidelines, Learning agreement) and finally ECTS coordinator election. The importance of the adoption of long-term Internationalization Strategy at the University of Novi Sad was particularly emphasized.

In the second part of training, a basis for ECTS mobility, when student's mobility is in question, a connection between ECTS and learning outcomes with academic recognition was explained in details. Also, some practical solutions for this link were presented by examples of both wrong and good practice. In a connection to the latter, a proposal for Learning agreement was described. This proposal was also partly created within the framework of the FUSE project and in cooperation with E+O in a way to efficiently solve potential problems in student's mobility.

Prof. Sinisa Djurasevic
Prof. Miodrag Lazarevic

The following table summarizes data regarding participants of all Local Training Meetings in Serbia during 2015

	Number of participants	Position		Gender		Number of faculties	
		Academic	Administrative	Female	Male	Total	Present
COT	37	23	14	23	14	1	1
SUNP	31	18	9	14	17	1	1
UNIKG	20	14	6	11	9	10	7
UNI	43	31	12	22	21	13	13
BG	44	18	26	23	22	31	27
NS	20	10	10	14	6	14	11
TOTAL	195	114	77	106	89	70	60

Some minor differences in figures exist due to students participants (neither teaching or non teaching staff)

It is evident that nearly 200 participants attended trainings and representatives of 60 (out of 70) Serbian HEI were included in this important activity
